This work is scheduled daily Monday through Friday from between 7:00 AM and 2:30 PM and Saturdays between 8:00 AM and 6:00 PM.

**Beale Street Overhead work and deliveries - at night (Between Mission and Howard Streets):** Overhead ceiling work, underground utility work and construction deliveries will occur at night between 8:00 PM - 5:00 AM this week. These rolling lane closures are done at night due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist. Local Access will always be available.

**Bus Storage Facility (BSF) bounded by Second, Perry, Third, and Stillman streets:** Construction continues with excavation, grading, rebar, formwork and concrete placement for the bus link ramp daily between 6:00AM and 4:30PM.

**What to expect next Weekend Saturday February 24<sup>th</sup> and Sunday February 25<sup>th</sup>:**

**Western Transit Center Project Site (Between First and Second Streets):** Construction continues onsite Saturday 6:00 AM and 4:30 PM.

There is no work scheduled for Sunday day shift. However, depending on progress, work may occur Sunday 6:00 AM and 4:30 PM.

**Central Transit Center Project Site (Between First and Fremont Streets):** Construction continues onsite Saturday 6:00 AM and 4:30 PM. There is no work scheduled for Sunday day shift. However, depending on progress, work may occur Sunday 6:00 AM and 4:30 PM.

**Fremont Street 2-Lane closures Saturday February 17<sup>th</sup> (south of Mission to the Transit Center):** Traffic lanes will be closed between 7:00 AM - 6:00 PM this week, due underground utility work and construction activity. These lane closures are done on weekends due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will assist.

**Natoma Street Full closure and detour Saturday February 24<sup>th</sup> (between First and Fremont Streets):** Natoma Street traffic lanes will close Saturdays between 7:00AM and 6:00PM for construction concrete pumping to the roof of the Transit Center. Detailed scheduling information and detours for local neighbors will be provided in advance of construction starting. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist with traffic and pedestrian impacts. Local Access will always be available.

**Eastern Transit Center Project Site (Between Fremont and Beale Streets)** Construction continues onsite Saturday 6:00 AM and 4:30 PM. There is no work scheduled for Sunday day shift. However, depending on progress, work may occur Sunday 6:00 AM and 4:30 PM.

**Beale Street 2-Lane closure Saturday February 17<sup>th</sup> (Between Mission and Howard Streets):** The western traffic lanes will be closed Saturday 8:00 AM and 6:00 PM for construction of underground piping and conduits. A minimum of one traffic lane will remain open during this time. Special Traffic Permits, traffic control devices and construction flaggers will assist with traffic and pedestrian impacts.

**Transit Center Lots under Bus Ramp Viaduct (Harrison to Howard Street):**

Construction laydown and equipment delivery continues onsite Saturday 6:00 AM and 4:30 PM. There is no work scheduled for Sunday day shift. However, depending on progress, delivery may occur Sunday 6:00 AM and 4:30 PM.

**Bus Storage Facility (BSF) bounded by Second, Perry, Third, and Stillman streets:**

Bus Storage Facility Construction continues onsite Saturday between 6:00AM and 4:30PM.

### **Detours, Street and Sidewalk Closures:**

Some surrounding streets in the area may be affected. So you can plan ahead, please review the affected streets below:

**SFMTA/MUNI Overhead Contact System (OCS) system construction low noise work at night - one (1) traffic lane will be closed during work this week:**

**Mission Street (between First Street and Beale Streets):** OCS & Traffic Signal system poles and overhead wiring will continue into late March 2018.

**First Street (between Howard and Mission Streets):** OCS & Traffic Signal system poles and overhead wiring will continue into late March 2018.

**Fremont Street (between Howard and Mission Streets):** OCS & Traffic Signal system poles and overhead wiring will continue into late March 2018.

**Beale Street (between Howard and Mission Streets):** OCS & Traffic Signal system poles and overhead wiring will continue into late March 2018.

**Howard Street (between Fremont and Beale Streets):** OCS & Traffic Signal system poles and overhead wiring will continue into late March 2018.

**First Street Lane closures - at night (Between Mission and Howard Streets):** Traffic lanes will be closed occasionally between 8:00 PM - 5:00 AM this week for overhead ceiling work and construction deliveries. These rolling lane closures are done at night due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will assist. Local Access will always be available.

**Fremont Street 2-Lane closures Saturday February 17<sup>th</sup> and again Saturday February 24<sup>th</sup> (south of Mission to the Transit Center):** Traffic lanes will be closed between 7:00 AM - 6:00 PM this week, due underground utility construction. This work is done on weekends due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will assist.

**Fremont Street Lane closures - at night (Between Mission and Howard Streets):** Traffic lanes will be closed occasionally between 8:00 PM - 5:00 AM this week for overhead ceiling work and construction deliveries. These rolling lane closures are done at night due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will assist. Local Access will always be available.

**Beale Street weekday 1-Lane closure daily through end of March (Between Mission and Howard Streets):** One western traffic lane will be closed Monday through Friday between 7:00 AM and 2:30 PM for construction of underground piping and conduits. A minimum of one traffic lane will remain open during this time. Special Traffic Permits, traffic control devices and construction flaggers will assist with traffic and pedestrian impacts.

**Beale Street weekend 2-Lane closures Saturday February 17th and again Saturday February 24th (Between Mission and Howard Streets):** The western traffic lanes will be closed Saturday 8:00 AM and 6:00 PM for construction of underground piping and conduits. A minimum of one traffic lane will remain open during this time. Special Traffic Permits, traffic control devices and construction flaggers will assist with traffic and pedestrian impacts.

**Beale Street Lane closures - at night (Between Mission and Howard Streets):** Traffic lanes will be closed occasionally between 8:00 PM - 5:00 AM this week for overhead ceiling work and construction deliveries. These rolling lane closures are done at night due to SFMTA restrictions. Special Traffic Permits, Traffic control devices and construction flaggers will assist. Local Access will always be available.

**Minna Street (between First and Second Streets): Lane closures and detours:** Minna Street traffic lanes will frequently be closed (days or nights) for landscaping materials deliveries to the roof, construction of underground utilities and reconstruction of roadway and sidewalks. Detailed scheduling information and detours for local neighbors will be provided in advance of construction starting. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist with traffic and pedestrian impacts. Local Access will always be available.

**Natoma Street Full closure and detour February 17<sup>th</sup> and again Saturday February 24<sup>th</sup> (between First and Fremont Streets):** Natoma Street traffic lanes will closed Saturdays between 7:00AM and 6:00PM for construction concrete pumping to the roof of the Transit Center. Detailed scheduling information and detours for local neighbors will be provided in advance of construction starting. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist with traffic and pedestrian impacts. Local Access will always be available.

**Natoma Street (between Fremont and Second Streets): Lane closures and detours:** Natoma Street traffic lanes will frequently be closed (days or nights) this week for construction of underground utilities and reconstruction of roadway and sidewalks. Detailed scheduling information and detours for local neighbors will be provided in advance of construction starting. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist with traffic and pedestrian impacts. Local Access will always be available.

**Natoma Street (between Second Street and 90 Natoma): Lane closures and detours:** Natoma Street traffic lanes will frequently be closed (days or nights) for construction of underground utilities and reconstruction of roadway and sidewalks. Detailed scheduling information and detours for local neighbors will be provided in advance of construction starting. Special Traffic Permits, Traffic control devices and construction flaggers will be assigned to assist with traffic and pedestrian impacts. Local Access will always be available.

**Bus Storage Facility (BSF) bounded by Second, Perry, Third, and Stillman streets:** Daily on-site construction continues daily Monday through Saturday from 6:00AM through 4:30PM with construction vehicles occasionally disrupting traffic.

### **Questions?**

Should you have any general questions about the Transit Center Project, please call Dennis Turchon at: (415) 597-4620 or via e-mail at: [info@tjpa.org](mailto:info@tjpa.org).

### **Construction Hotline:**

If you have any urgent questions regarding site-specific demolition or construction activities, please call our construction activity number: (415) 409-TJPA (8572).

### **Website:**

Please continue to check our website for the most up to date schedule of activities at: <http://tjpa.org/construction-updates>

### **Construction Activity Map:**

Check out the construction activity map at: <http://tjpa.org/construction-updates/construction-activity-map>

### **Public Transit:**

The TJPA encourages the use of public transportation. Please click on the link provided to assist in all of your public transportation travel needs: <http://511.org/> or visit [www.temporaryterminal.org](http://www.temporaryterminal.org)
