

TJPA Quarterly Investment Report

To: TJPA Board of Directors

From: Erin Roseman, Chief Financial Officer

Date: For the Quarter Ending March 31, 2019

Per the Board-approved TJPA Investment Policy, the primary objectives, in priority order, for the TJPA's investment activities are safety, liquidity, and then return on investment. The TJPA's permitted investment instruments are governed by California Government Code and the Investment Policy, as well as by financing agreements such as the TIFIA Loan Agreement. All cash is currently held in one of the following accounts:

- 1) Insured/collateralized checking accounts with U.S. Bank
 - Regular Checking
 - Payroll
 - Contractor Retention
 - Operating
- 2) City & County of San Francisco Pooled Investment Fund
- 3) California Local Agency Investment Fund (LAIF)
- 4) Trust accounts with U.S. Bank (formerly Deutsche Bank)
 - Construction Fund for deposit of land sales proceeds and prior bridge loan proceeds
 - TIFIA Collateral Agency accounts for deposit and flow of net tax increment proceeds

The attached Investment & Earnings report identifies the balance in each of these accounts as of the end of the quarter. This report is sent to the Board within 30 days of each fiscal year quarter's end to comply with state government code reporting requirements. Each report is also posted on the TJPA website under Financial Documents to ensure public access to the information.

Due to the still low interest rate environment, and because any interest earned on federal funds would need to be remitted to FTA, the U.S. Bank accounts are currently set up with an earnings credit rate, meaning that any earnings offset bank fees, and unused 'earnings' in one month are rolled to the following month(s). Thus, no interest earnings are reported in the investment report for the bank account. The balances of all accounts are combined to calculate the earnings. TJPA holds only the amount necessary for estimated upcoming cash disbursements in the regular checking account, and a fixed imprest amount in the payroll account. The contractor retention account is a 'small business' checking account that has a limited amount of activity and no fees. The operating account is utilized by TJPA and the asset manager for deposit of rents and payment of various operating expenses.

The current cash balance in City Treasurer's Pool is \$10,179,679. This includes \$153,838 interest received in the current quarter for fiscal year ended June 30, 2018. Since this is not current quarter revenue, it does not appear on this quarter's report. The continued delay in reporting is due to implementation of the City's new financial system. The balance will be updated and posted as available. Interest earnings for LAIF were \$183,344; the ending cash balance is \$26,082,448.

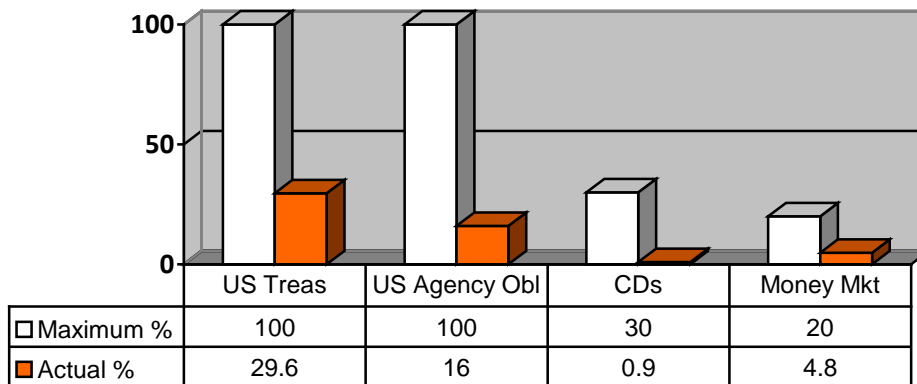

The TJPA has trust accounts with U.S. Bank for gross sales proceeds from former state parcels, bridge

loan proceeds, and net tax increment revenues. TJPA generally follows conservative investment practices of buying and holding investments until maturities, which are laddered. At March 31, 2019, the TJPA trust accounts collectively held \$39,639,000 (par value) of U.S. Treasury Bills and Notes, U.S. Agency Obligations, and certificates of deposit (CDs) that mature on a rolling basis, plus money market mutual funds balances totaling \$4,104,031 for projected upcoming disbursements in order to avoid penalties or losses for selling any investments before maturity. The proceeds of the U.S. Treasury investments and CDs that mature in fourth quarter 2019 will primarily be reinvested in new U.S. Treasury investments with balances being transferred to the money market mutual funds for upcoming disbursements. The trust account investment earnings of \$259,631 reported for the quarter equals accrued interest for the period, plus amortization attributable to the period of discounts on U.S. Treasury Notes. Further details on investments are shown below and in the attached quarterly report.

Portfolio Investments at March 31

Compliance with Investment Policy Percentages at March 31

The portfolio overall is in compliance with the TJPA Investment Policy. As noted above, TJPA generally holds investments until maturity.

The Monthly Investment Transaction Report is concurrently being provided to the Board. It shows purchases and maturities of investments for the reported month, excluding pooled investments and money market funds.

¹ The TJPA investment portfolio is in compliance with the TJPA Investment Policy (California Government Code Section 53646(b)(2)). TJPA has sufficient resources to cover expenditures for the next six months (CGC Section 53646(b)(3)).

² Investment interest reported as accrued interest for period, net of premium or discount amortization. CCSF interest for July 1, 2018 to March 31, 2019 not yet provided.

³ Source of Market Value is U.S. Bank portfolio statements issued for March 31, 2019. TJPA holds securities until maturity.

⁴ The calculation of Weighted Average Maturity for total investments assumes a maturity date of one day for investments without a maturity date.
